

Selection of long climate time series in the Greater Alpine Region
(homogenised, outlier corrected and gap-completed – updated to 2003)

part 1:
MEAN AIR TEMPERATURE
ANNUAL, SUMMER HALF YEAR and WINTER HALF YEAR

(Figures of each site in alphabetical order according to station list below)

HISTALP long-term combi series								
id	abbr.	full name		deg east	deg north	alt. (m)	start temp	start prec
159	AUG	Augsburg	DE	10.93	48.42	463	1813	1812
